

Service Description: **WebDi Leu Cast Series**

**Skill Level Code**

- Aspiring, Emerging, and Advanced (see descriptions on the main page)

**Overarching Benefit**

The WebDi Leu Cast Series is a webcast effort to provide a “screen-to-screen” online experience for viewers and our guests. Unlike PoDi Leu Casts, the series has macro-level foci on social justice, systemic change, defining innovation, and much more.

The WebDi Leu Cast primarily features nationally known experts for authentic listening experiences and insight production. The experience is not structured to solve or strategize about any matter. It is structured to stimulate active listening and summarization of facts and fiction that shape the greater administrative effort of diversity-related professionals in all industries.

You are invited to attend this important Coop Di Leu Do for a real talk about the plight of diversity from the perspective of national experts.
