

Service Description: **Coop Di Leu U**

Skill Level Code

- Aspiring, Emerging, and Advanced (see descriptions on the main page)

Overarching Benefit

Coop Di Leu offers direct engagement with specific topics and nuance within the field of diversity administration. Courses are provided in “buckets” appropriate for respective skill levels, with general courses in each bucket. Courses are designed to be short, benefiting the learner with grab-n-go sundry nuggets of wisdom and application. Learners benefit directly from synchronous Q&A during selected courses, online group discussions, and assignment feedback.

Primary Goals:

1. Introduce components of diversity administration in bite-sized presentations
2. Improve the implementation of subject matters in real-time
3. Set the learner into a series of connected and progressive skill development
4. Encourage personalized development and mastery of professional thought life regarding presence, performance, and productivity

What to expect:

- Learn essential to complex constructs of diversity administration
- Improvement of self-temperament
- How to navigate political and “shadow culture” terrains
- Learn the impact of diversity science and its application best practices
- Learn how to establish metrics that matter and measure intended progress
- Examination of personal thought life constructs and associated behaviors
